Configuration example

① BusAdapter

② Mounting rail

③ Reference identification label

④ CPU/interface module

⑤ Light-colored BaseUnit BU..D with infeed of supply voltage

⑥ Dark-colored BaseUnits BU..B for conducting the potential group further

⑦ BaseUnit for motor starters

⑧ Potential distributor module

⑨ Ex BaseUnit for Ex power module

⑩ Ex BaseUnit for Ex I/O module

⑪ Server module (included in the scope of supply of the CPU/interface module)

⑫ Ex I/O module

⑬ Ex power module

⑭ ET 200SP motor starter

⑮ I/O module

Figure 5-2 Configuration example of the ET 200SP
